Coalitional Behaviour In Theory And Practice: An Inductive Model For Western Europe

The World Today 1987

Emerging Democracy: Geoffrey Pridham 1989
This is a study of the international context of democratization among new states which have concentrated upon internal domestic factors in the interrelation of autocratic and democratic regimens.

Securing democracy 1996

Security and Politics in the Nordic Area John Finnström 1997
It is a textbook analysis of democratic and political dilemmas in the Nordic states. It covers political life in the modern society, its problems and achievements. It is based on the Nordic states' own political history, policies, and their international relations.

How Ireland Voted 1989

Quantum Politics: Steven K. Frazer 1985
Physics, according to Frazer, provides the means for replacing 18th century political and economic philosophies with a new paradigm more consistent with our current understanding of physical reality. Through contributions by a number of political scientists, this book argues that a non-linear world order can emerge in the 21st century, and that the implications of quantum physics, and especially those of quantum mechanics, extend beyond the physical sciences to the social sciences.

Pre-electoral Alliances, Coalition Rejections, and Multiparty Governments - Doris Dowds 2017
Governments are a central theme in comparative political science. This book explores how pre-electoral clues influence the rejection of pre-electoral clues, and how pre-electoral alliances and rejections influence the outcome of elections. It studies how the choice of electoral systems can alter the incentives and constraints for political parties, and how these incentives and constraints can shape the outcomes of elections.

The Politics of EU Accession: Steven K. Frazer 1986
This book presents a conceptual framework that can explain the impact of European integration on party politics in Western Europe. It covers the political and economic policies of the EU, and how these policies affect the political parties and their policies.

Cabinets in Multi-party Democracies - Per von Rosenthal 1992

Constitutional Rules and Party Goals in Coalition Formation - Mats Sjölin 1993
This book addresses the variations in democratic institutional design and seeks to determine not only if these differences matter, but also to explain how they matter.

The Development of the European Union - Stephen T. Johnson 1993
This book provides a comprehensive overview of the European Union's development, from its origins in the 1950s to the present day. It covers the political, economic, and social developments that have shaped the Union, and how these developments have influenced the Union's current structure and policies.

The Politics of Europe: Annu Eriksson 1997
This book examines the role of Europe in contemporary politics, and how it has influenced the political landscape in the EU member states.
