Humanitarian Intervention in Somalia Bibliography- 1995

The Invention of Somalia- Ali Jimale Ahmed 1995 This study analyses the basic assumptions which had informed the construction of the now, discredited Somali myth...

Understanding Somalia and Somaliland-Ioan Lewis 2011-07-19 Ioan Lewis details the history and culture of the Somali people, providing a unique window into this little-known culture and its increasingly public predicaments. He provides insight into the complex social, historical, and cultural hinterland that is the Somali heritage and pays close attention to the pervasive influence of traditional nomadism, especially its extremely decentralized nature. Lewis also addresses developments in the Somali political region since the collapse of the Republic in 1991, including the formation and steady development of the democratic state of Somaliland. Though it has grown into a de facto personality, this self-governing outpost of democracy is still officially unrecognized internationally. Lewis concludes with a discussion of the Islamist movement that brought a brief but astonishing period of stability to much of Southern Somalia in late 2006.

Understanding Somalia and Somaliland-Ioan M. Lewis 2011-07-15 Ioan Lewis details the history and culture of the Somali people, providing a unique window into this little-known culture and its increasingly public predicaments. Lewis also addresses developments in the Somali political region since the collapse of the Republic in 1991, including the formation and steady development of the democratic state of Somaliland. Though it has grown into a de facto personality, this self-governing outpost of democracy is still officially unrecognized internationally. Lewis concludes with a discussion of the Islamist movement that brought a brief but astonishing period of stability to much of Southern Somalia in late 2006.

Spirits in Culture, History and Mind- Jeannette Mageo 2012-12-06 Spirits in Culture, History and Mind reimagines spirits into comparative theories of religion, which have tended to focus on institutionalized forms of belief associated with gods. It brings an historical perspective to culturally patterned experiences with spirits, and examines spirits as a locus of tension between traditional and foreign values. Taking as a point of departure shifting local views of self, nine case studies drawn from Pacific societies analyze religious phenomena at the intersection of social, psychological and symbolic approaches to religion, shedding new light on the ways spirits relate to other cultural phenomena.

Making War and Building Peace-Michael W. Doyle 2006-06-04 The author analyzes the effectiveness of United Nations peacekeeping missions in building peace after civil war. The text utilizes statistical analysis of civil wars since 1945 to compare the outcomes of peace processes, including UN peacekeeping missions.

Getting Somalia Wrong-Mary Harper 2012-02-09 Somalia is a failed state, representing a threat to itself, its neighbours and the wider world. In recent years, it has become notorious for the piracy off its coast and the rise of Islamic extremism, opening it up as a new ‘southern front’ in the war on terror. At least that is how it is inevitably portrayed by politicians and in the media. Mary Harper presents the first comprehensive account of the chaos into which the country has descended and the United States’ renewed involvement there. In doing so, Harper argues that viewing Somalia through the prism of al-Qaeda risks further destabilizing the country and the entire Horn of Africa, while also showing that though the country may be a failed state, it is far from being a failed society. In reality, alternative forms of business, justice, education and local politics have survived and even flourished. Provocative in its analysis, Harper shows that until the international community starts to ‘get it right’ the consequences will be devastating, not just for Somalia, but for the world.

Somalis in Minnesota-Ahmed Ismail Yusuf 2012 An enlightening introduction to Minnesota’s Somalis, who have adjusted to a new climate, new language, and new culture in a region wholly different from their homeland.

An Ecological Assessment of the Coastal Plains of North Western Somalia (Somaliland)-Malte Sommerlatte 2000

Peoples of the Horn of Africa-I. M. Lewis 1969 Purpose of this series is to present in a brief and readily comprehensible form a summary of available information concerning the different peoples of Africa with respect to location, natural environment, economy and crafts, social structure, political organization, and religious beliefs and cults.

Civil War America-Maggi M. Morehouse 2013 As war raged on the battlefields of the Civil War, men and women all over the nation continued their daily routines. They celebrated holidays, ran households, wrote letters, read newspapers, joined unions, attended plays, and graduated from high school and college. Civil War America reveals how Americans, both Northern and Southern, lived during the Civil War—the ways they worked, expressed themselves artistically, organized their family lives, treated illness, and worshipped. Written by specialists, the chapters in this book cover the war’s impact on the economy, the role of the federal government, labor, welfare and reform efforts, the Indian nations, universities, healthcare and medicine, news coverage, photography, and a host of other topics that flesh out the lives of ordinary Americans who just happened to be living through the biggest conflict in American history. Along with the original material presented in the book chapters, the website accompanying the book is a treasure trove of primary sources, both textual and visual, keyed for each chapter topic. Civil War America and its companion website uncover seismic shifts in the cultural and social landscape of the United States, providing the perfect addition to any course on the Civil War.

Putting the Cart Before the Horse-Abdi Kusow 2004 This book represents an attempt to introduce the notion of contested national identity as a theoretical framework for understanding the crisis of the nation-state in Africa, and Somalia in particular. The contributors to the volume share the perspective that one of the principal variables that inform much of the present crisis in Somalia resulted from the simultaneous co-existence of two paradigms/narratives (lineage-based versus territorial) of Somalianness that contest the meaning of people, place, and the history on which nationalism is predicated. The volume represents a major shift in the study of Somali historiography in that the contributors challenge the well-known Somali assumption that a community can form the basis for nationalism, in the absence of shared cultural sensibilities, leading to a reconsideration of how national identities are formed, and a context sensitive approach to competence in occupational safety and health is new and forms a theoretical basis for putting into place the necessary learning processes for cultural transformation in companies and educational institutions.

Safety and Health Competence-Ulrike Bollmann 2020-07-29 Global and technological transformation is changing work and learning. A broader understanding of prevention and cultural change associated with it is putting new demands on companies and their employees. People and organizations need suitable competences to deal with this transformation. They need to be empowered to shape decent living and working conditions. Safety and Health Competence: A Guide for Cultures of Prevention is written in the context of work and health. The use of a social-constructive and a context sensitive approach to competence in occupational safety and health is new and forms a theoretical basis for putting into place the necessary learning processes for cultural transformation in companies and educational institutions. Covers a broad range of new demands placed on companies and employees in this age of global and technological transformation Provides assistance with a better understanding of the current debate on occupational safety and health (OHS) competences Presents a comprehensive source of information for OSH experts, human resource specialists, educational institutions, training development specialists, teachers, and trainers, allowing them to identify competence needs, promote competence development, and assess competences Explains

History and Material Culture–Karen Harvey 2013-02-01 Sources are the
raw material of history, but where the written word has traditionally been seen
as the principal source, today historians are increasingly recognizing
the value of sources beyond text. In History and Material Culture, Karen
Harvey embarks upon a discussion about material culture – considering
objects, often those found surrounding us in day to day life, as sources,
which can help historians develop new interpretations and new knowledge
about the past. Across ten chapters, different historians look at a variety of
material sources from around the globe and across centuries to assess how
such sources can be used to study history. While the sources are discussed from
‘interdisciplinary’ perspectives, each contributor examines how
material culture can be approached from an historical viewpoint, and each
chapter addresses its theme or approach in a way accessible to readers
without expertise in the area. In her introduction, Karen Harvey discusses
some of the key issues raised when historians use material culture, and
suggests some basic steps for those new to these kinds of sources. Opening
up the discipline of history to new approaches, and introducing those
working in other disciplines to historical approaches, this book is the ideal
introduction to the opportunities and challenges of researching material culture.

The Origins and Development of Mogadishu AD 1000 to 1850-Ahmed

Somalis in Maine-Kimberly A. Huisman 2011 “Containing personal stories,
ethnography, and reflective essays, Somalis in Maine explores the unique
cross-cultural interactions and collaborations between Somali refugees and
Americans in the town of Lewiston, Maine”–Provided by publisher.

The African State-Abdi Ismail Samatar 2002 This volume captures the
diversity of African states and leadership by examining eight states from
northern, western, eastern, and southern Africa.

The Routledge Introduction to American Women Writers-Wendy
Martin 2016-04-28 The Routledge Introduction to American Women Writers
considers the important literary, historical, cultural, and intellectual
contexts of American women authors from the seventeenth century to the
present and provides readers with an analysis of current literary trends and
debates in women’s literature. This accessible and engaging guide covers a
variety of essential topics, such as: the transatlantic and transnational
origins of American women’s literary traditions the colonial period and the
Puritans the early national period and the rhetoric of independence the
nineteenth century and the Civil War the twentieth century, including
modernism, the Harlem Renaissance, and the Civil Rights era trends in
twenty-first century American women’s writing feminism, gender and
sexuality, regionalism, domesticity, ethnicity, and multiculturalism. The
volume examines the ways in which women writers from diverse racial,
social, and cultural backgrounds have shaped American literary traditions,
giving particular attention to the ways writers worked inside, outside, and
around the strictures of their cultural and historical moments to create
space for women’s voices and experiences as a vital part of American life.
Addressing key contemporary and theoretical debates, this comprehensive
overview presents a highly readable narrative of the development
of literature by American women and offers a crucial range of perspectives on
American literary history.

The Bible in Western Culture-Dee Dyas 2005 With no prior Biblical
knowledge required, this volume offers a framework of understanding for
those studying Western literature, art, historical events, or for those just
wanting to improve their general knowledge.

Latino History and Culture-David J. Leonard 2015-03-17 Latinos are the
fastest growing population in America today. This two-volume encyclopedia
traces the history of Latinos in the United States from colonial times to the
present, focusing on their impact on the nation in its historical development
and current culture. “Latino History and Culture” covers the myriad ethnic
groups that make up the Latino population. It explores issues such as labor,
legal and illegal immigration, traditional and immigrant culture, health,
education, political activism, art, literature, and family, as well as historical
events and developments. A-Z entries cover eras, individuals, organizations
and institutions, critical events in U.S. history and the impact of the Latino
population, communities and ethnic groups, and key cities and regions.
Each entry includes cross references and bibliographic citations, and a
comprehensive index and illustrations augment the text.

African and Asian Studies- 2005

History and Cultural Theory-Simon Gunn 2014-05-22 In recent times
there has been recognition of the growing influence of cultural theory on historical writing. Foucault, Bourdieu, Butler and Spivak are just some of the thinkers whose ideas have been taken up and deployed by historians. What are these ideas and where do they come from? How have cultural theorists thought about ‘history’? And how have historians applied theoretical insights to enhance their own understanding of events in the past? This book provides a wide-ranging and authoritative guide to the often vexed and controversial relationship between history and contemporary theory. It analyses the concepts that concern both theorists and historians, such as power, identity, modernity and postcolonialism, and offers a critical evaluation of them from an historical standpoint. Written in an accessible manner, History and Cultural Theory gives historians and students an invaluable summary of the impact of cultural theory on historiography over the last twenty years, and indicates the likely directions of the subject in the future.

Libri-Jean Anker 1999 Vols. 4-24 include Communications of the International Federation of Library Associations (IFLA-FIAB).

Country Profile- 2002

Historical Dictionary of Islamic Fundamentalism-Mathieu Guidère 2017-09-20 After the rise of the Islamic State in the Middle East and the new geopolitical landscape in this region, it is essential for the modern reader to understand the history that has allowed for and influenced these types of Islamic groups to form. Historical Dictionary of Islamic Fundamentalism acts as a didactic resource that explains, from the Islamic perspective, the historical importance of the Islamic fundamentalist world. This dictionary provides a comprehensive and thorough analysis of various groups, events, movements, key figures, and dogmas that have influenced contemporary Islamic fundamentalism. A chronology spanning 600 years, graphs of complex Islamic group associations and alliances, and an Arabic-to-English glossary have all been included to facilitate a complete understanding of the nuances and generalities that have shaped this movement. This second edition of Historical Dictionary of Islamic Fundamentalism also contains an introduction, appendixes, an extensive bibliography, and more than 700 cross-referenced entries on ideologies, people, events, and movements of the 20th and 21st centuries.
